BRIEF REPORT OF W. P. A.

Since the WPA appropriation has gotten to be quite a sizeable item in our budget it seems wise to make a brief report of the WPA activities in the town for the past year.

The number of men working on WPA during the year has increased from about thirty early in the year to forty-six at the end of the year.

The total cost of the WPA to the town of Berkley for the year 1938 was \$4,214.10. Approximately \$400.00 of this expense was for the maintenance of the local WPA Commissary and the town's share of maintaining the WPA warehouse at Taunton and our share of the State office expense at Boston.

The bulk of the WPA expenditures went to pay for the trucks, gravel and materials. The largest single item outside of truck labor was \$790.62 for gravel.

The contribution made by the Federal Government toward the WPA projects carried on in Berkley during the year 1938 amounted to approximately \$27,000 paid out for labor. The WPA Commissary also distributed between \$6,000 and \$7,000 worth of food and clothing. In other words the U. S. Government supplied something over \$33,000 in money and materials in comparison with the \$4,214.10 contributed by the town of Berkley or putting it in another light the people of Berkley received about \$8.00 from the U. S. Government for every dollar spent by the town of Berkley.

The accomplishments of the WPA for 1938 included the widening, straightening and graveling of over three miles of dirt roads. In this connection I would call to your attention the fact that the Farm

to Market Road projects of this and past years made possible the releasing of sufficient Chapter 81 money to oil during 1938 approximately three miles of roads built from WPA funds.

Another project which was carried out by the WPA as an emergency project was the clean up after the hurricane. This probably saved the town in the neighborhood of \$2,000 as most of this work must otherwise have been done with town funds.

A third project carried out by the WPA was the gypsy moth project. While this project is not as valuable to the town as the road projects, it has been more worthwhile than some of us realize. This project includes not only the suppression of the gypsy moth but also the control of the brown tail moth, tent caterpillars and other pests. In connection with this project a large amount of brush which harbors these pests has been cleaned up along our roadsides.

According to Mr. Briggs, our moth superintendent, the gypsy moth infestation has been greatly reduced during the past year. The destruction of these gypsy moths along the roadsides and woods bordering the road has greatly improved the appearance of our roadsides as well as preserving the vigor of the trees and the condition of the foliage.

WARREN L. IDE,
WPA Coordinator.

Respectfully submitted,

FRANCIS F. G. ANDREWS,

Treasurer.

As Auditor of the Town of Berkley, I have examined and checked in detail the books and accounts of the Town Treasurer. The receipts were analyzed and compared with the collections as recorded in the several depts. collecting money for the town, while the disbursements were checked with the selectman's warrants. The cash book was footed and the cash balance was verified by a reconciliation of the bank account with a statement furnished by the bank of deposit. I hereby certify that the information contained in this report is complete and correct to the best of my knowledge and belief.

CARLTON E. COBB,

Town Auditor.

| ARTHUR E. ROBBINS, | | |
| Collector of Taxes. | | |

I have made an audit of the collector's accounts for the period from Oct. 17, 1938 to Dec. 31, 1938. The books in the custody of the collector were examined. The collections were compared with payment to the treasurer, and the abatements were checked with the assessors' abatement slips. To verify the outstanding accounts, notices were sent to persons whose names appeared on the books as owing money to the town.

I hereby certify that the information contained in this report is complete and correct, to the best of my knowledge and belief.

CARLTON E. COBB,
Town Auditor.

February 9, 1939.

To the Board of Selectmen,
Mr. Warren L. Ide, Chairman,
Berkley, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the collector of taxes of the Town of Berkley for the period from April 3 to October 17, 1938, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.

Sir:

In accordance with your instructions I have made an audit of the books and accounts of the collector of taxes of the town of Berkley for the period from April 3, 1938, the date of the previous audit, to October 17, 1938, the following report being submitted thereon:

The audit of the collector's accounts was preceded by an examination of a number of tax bills sent out by the collector to non-residents on account of their 1938 taxes. Twenty such tax bills were examined and it was found that in each case the tax bill sent out was in excess of the amount of the tax committed by the assessors to the tax collector for collection. The overcharges thus made by the collector on the above mentioned twenty tax bills may be summarized as follows:

| | | |
|----|---|--------|
| 1 | @ | \$1.40 |
| 14 | @ | 1.00 |
| 2 | @ | .50 |
| 2 | @ | .40 |
| 1 | @ | .20 |

At the completion of the examination, the tax collector resigned and an audit of his accounts was made. The tax accounts outstanding at the time of the previous examination were audited, and the subsequent commitments of taxes were proved. The cash book additions were verified, the payments to the treasurer were compared with the treasurer's cash book, the abatements were checked to the as-

sessors' records of abatements granted, and the outstanding accounts were listed and proved.

The outstanding accounts were verified by mailing notices to all of the persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The total amounts outstanding on each of the several levies of taxes were given to the board of assessors for use in preparing the recommitment, and detailed lists of the taxes outstanding were obtained by the temporary collector for his use.

The surety bonds of the collector and the temporary collector were examined and found to be in proper form.

For the cooperation received from the several town officials during the progress of the investigation and audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

REPORT OF THE SCHOOL COMMITTEE, BERKLEY

To the Citizens of Berkley:

Miss Dorothea McAloon of Taunton, a graduate of State Teachers' College at Hyannis, was elected in August, 1938 to the vacancy at the Myricks School caused by the resignation of Miss Muriel Barnes, who went to a teaching position at North Dighton. This was the only change in the teaching staff during the year.

The committee senses a feeling of satisfaction in the work of the Berkley Schools, and it is sure that the townspeople would be equally pleased if they would observe at first hand the schools at work. We have a competent staff of teachers whose work is not confined to the classroom. Their interest is evidenced in the work of the 4-H Clubs, the boys and girl scouts' programs, and in athletics, all of which goes far in promoting the well rounded education of the boys and girls.

In requesting the sum of \$21,653.93 to cover school costs during the ensuing year, the committee would call attention to the reimbursement by the state which amounts to approximately \$14,303.93, leaving a net cost to the town of \$7,350.00.

The committee meets regularly on the Wednesday preceding the first Saturday of every month, and it welcomes at any time a friendly discussion with interested individuals in regard to problems affecting the schools.

Respectfully submitted,

MILDRED A. CARR BABBITT

Secretary, School Committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Berkley School Committee:

Mrs. Babbitt and Gentlemen:

I am submitting herewith my ninth annual report as superintendent of schools in the Town of Berkley. The changes in these nine years have been many. Only one teacher who was in the Berkley Schools when I came to this district is still teaching in Berkley. Improved building conditions are an outstanding achievement. Nine years ago the Berkley School building had an unfinished basement and no modern sanitary facilities. Today it is a completely modern building — well equipped. The teachers of the town are a group of professionally-minded well-trained people who are sincerely interested in the welfare of the boys and girls.

To you—members of the committee—to whom is due the credit for so many of the steps ahead and for the ever-ready counsel and support of the program—I would express my sincere appreciation and my determination that, in spite of unavoidable financial handicaps, the Berkley Schools shall rank high in their achievement for the children for whose interest they exist.

The Budget.

The 1939 budget shows a total increase of \$409.93. It should be noted that the only item showing a major increase in the budget is that of high school tuition which is a fixed responsibility. This increase of \$645.00 in tuition is due to the fact that while Berkley has 11 seniors in high school due to graduate, it also has an entering class for September 1939 of 28 pupils which make a net increase of 17 in high school enrolment.

The increase in high school enrolment from Berkley is shown below:

| | | |
|-------------|---------|---------------|
| School year | 1934-35 | 40 |
| School year | 1935-36 | 40 |
| School year | 1936-37 | 58 |
| School year | 1937-38 | 58 |
| School year | 1938-39 | 55 |
| School year | 1939-40 | 72—(Estimate) |

That this increase is due in part to industrial conditions is true. It should be also attributed to the increasing desire on the part of parents to give to boys and girls a better opportunity to prepare themselves to earn a livelihood.

The increase in high school tuition has been partially offset by reductions in the items listed below:

- (a) teachers salaries
- (b) transportation
- (c) repairs

Of most interest to the townspeople, however, should be the amount chargeable to local taxation which is the net cost after state reimbursements are deducted. This is shown in the table below:

| 1935 | 1936 | 1937 | 1938 | 1939 |

The School and the Public.

Essential in any school system, if it is to do its best for the pupils in the school, is the intelligent co-

operation of the public. No one can know the school without entering its doors. Hearsay knowledge is not enough. For that reason I am urging once more that the citizens of the town acquaint themselves with the school program from inside its doors. One of the fundamental principles of the public education is that "the public school is the school of the people". It must, by its very nature, reflect the desires of the citizens. If we remember also that education is not completed in the school and that the school is only one agency in the education of young people—the home, the church, the movie, the newspaper, the corner gang—each are influences in the whole educative process. This close relation of the varying forces which affect the future of young people is my reason for asking teachers to contact the homes of the pupils in their charge, to know as much as possible about community life and to themselves participate in it. It is also my reason for hoping that parents will use any opportunity to talk over problems concerning boys and girls with the teachers or principal.

The annual observance of Education Week brought out a fine number of interested parents who saw the children at their actual school tasks.

Respectfully submitted,

NORMAN D. BAILEY,

Superintendent of Schools.

REPORT OF SCHOOL PHYSICIAN AND NURSE

To the Superintendent of Schools:

Dear Sir:

We hereby submit our annual report.

The use of the Telebinocular, an eye testing machine used in conjunction with the Snellen Chart, was of great value in checking the sight of the pupils.

The annual physical examination of 206 pupils showed an increase in pupils needing attention for enlarged tonsils and adenoids. In so many of the cases the family is financially unable to take care of the necessary operations and the same is true where glasses are needed. The number of slight lateral curvature of the spine showed an alarming increase. Through the establishing of Physical Education classes it is hoped that this defect may be corrected.

At your request a Parent Conference was held in Myricks and Berkley Schools. The parents attending expressed their appreciation of the help received at the meetings. Dr. Briggs gave a demonstration of a physical examination, explaining as he worked and led a discussion of the various clinics open to the pupils of the school.

There were no epidemics of contagious diseases through the year. Occasional cases of mumps and measles and chicken-pox being reported.

If interest is shown a Dental Clinic may be established during the coming year.

Nurse's home calls—108.
Nurse's classroom visits—272.

REPORT OF MUSIC SUPERVISOR

To the Superintendent of Schools:

Dear Sir:

I herewith submit my report on the work in music in the public schools of Berkley for the year 1938.

Grades I and II learned fifty rote songs. These included art songs, observation songs, and songs for special holidays.

Every effort is always made to develop the singing voice of the monotone. He is placed in front of a good singer so he may hear the correct tune. He is encouraged to match tones and phrases as the teacher and supervisor give him special help.

Simple notation is presented toward the end of the year as a preparatory step for book work. Pupils in all of the grades are encouraged to sing alone or in groups before their classmates. Beginning with Grade III and on through Grade VI inclusive, much stress is placed on tone quality, syllable reading, and time problems.

In Myricks the music classes have made marked progress and greater leadership is in evidence. This is very encouraging.

At the graduation in June the program was built around the music of the British Isles. Myricks presented Welsh and Scotch songs and Berkley Common gave those of Ireland and England and boys' chorus "When Irish Eyes are Smiling" was especially well received by the audience as was "O No, John," by the Myricks School with pantomine dramatization.

In September a new arrangement of music classes was made at Berkley Common because of the division of several of the grades. The music classes now are Grades I and II, III, IV, V and VI, VII and VIII. This is working out very satisfactorily and better work is being done.

About twenty pupils, under the direction of Mr. Thomas, sang two selections at the Sunday morning services in the Berkley Church the last of November. Such participation gives confidence and poise to these young people.

In closing I should like to express my very sincere appreciation of the fine cooperation given me by the teachers.

Respectfully submitted,

LOIS J. SNOW,

Supervisor of Music.
